Raising children to raise the world

The catalog
for ages 0/6

LEARNING IS FUN

World Leader
in Soft Play and Active Play

Since 1975, Wesco's commitment to designing, selecting and manufacturing innovative products for children aged 0 to 6 has been unwavering.

The well-being of children *our driving force*

Every day, our teams work diligently to fulfill our corporate mission: For children to awaken the world! We admire the potential of all children and are equally attentive to their individual needs. For us, diversity is an opportunity and it drives us year after year to offer a range of new, innovative products.

The customer *at the center of our concerns*

Alongside early childhood professionals, schools, nurseries, we have forged a lasting and trusting relationship for more than 50 years. More than ever, our desire is to maintain our high standards and surpass your expectations by always offering you more innovative products and services.

Tomorrow *is imagined today*

We are all mobilized to take care of the future of children. Every day our choices are guided by our values: offering creative products, reducing our impact on the environment, raising children's awareness of the challenges of tomorrow and living well together... Continuous improvement is the heart of our approach

Relaxing furniture

White furniture for better reflections of light patterns!

The colours created by the light patterns allow children to experience unique moments, awakening their senses so that they develop improved body awareness.

+ Covered in comfortable, resistant and ultra-safe vinyl fabric for intensive use and easy cleaning.

High-density foam (1,5 lbs/ft³) will not sag over time and does not pose an injury risk to children.

sensory huts

**A really cosy space, created
in the blink of an eye!**

Safe: highly resistant vinyl fabric for intensive use in communities.

The thick foam walls (2 3/4") dampen noise and promote a renewed sense of calm.

Easy to clean: wipes clean with a soft cloth or sponge, and cold soapy water.

From birth

Made in Canada

SENSORY CABIN The thickness of the foam reduces noise and protects the child from injury. The vinyl fabric is suitable for intensive group use and is easily cleaned. Consists of: 4 walls with a thickness of 2 3/4", a 1 1/2" thick floor mat and a vinyl covered roof. L: 47 1/4" - W: 47 1/4". Made from FOAM and COATED FABRIC. Washable with water. Indoor use. Delivered flat-packed, do-it-yourself installation. Colours WHITE (001)

53 916

each

2 YEAR GUARANTEE

Phthalate-free.

Comes deflated with a
fabric storage bag and 1
self-adhesive repair patch.

Sensory: maximum sensations provided by lights reflecting on transparent surfaces and sound absorption inside.

Accessibility: wide opening.

Safety: transparent openings for optimal supervision. Highly resistant thick fabric.

Inflatable: flexible, cushioned structure.

Easy to clean: can be easily cleaned with a soft cloth or sponge using cold soapy water.

Space saving: can be deflated and stored in its carrying bag.

+ 6 months

SENSORY IGLOO An original, fun and sensory creation! What a captivating cabin – the perfect place to hide, imagine, dream up stories and play with the transparent areas. The child feels reassured and protected in this dome-shaped space where sound diffusion and light reflections take on new dimensions, leaving the child speechless and captivated by this sensory, soothing spectacle. Ø 67" - H: 39 1/4" - Interior Ø 55". Made from PLASTIC. Washable using a soft cloth in cold soapy water. Comes deflated with a fabric storage bag and 1 self-adhesive repair patch. Colours WHITE (001)

each

Pop-up system: easy to unfold and refold

Hard-wearing 100% POLYESTER fabric that protects against rain, wind and sunlight (UPF 50 UV protection index).

Waterproof floor mat to keep children dry

Base ventilation to allow air to circulate freely.

Easy carry with the storage bag

Large to accommodate several children at the same time

+ 12 months

POP UP TENT Large size With its pop-up system, this practical UV protection tent folds and unfolds in a matter of seconds. Once unfolded, stabilise the tent by either: filling the 4 sewn-in pockets on the outside or driving in the pegs (supplied). It's perfect for protecting little ones from the sun (UPF 50 UV protection index), wind and sand. The backdrop is fitted with an air vent that closes with a curtain. L: 76" - H: 41" - D: 43 1/4". D. With mat: 65". Folded: Ø 21 1/4" - Weight: 2,4 lbs. Made from Hard-wearing 100% POLYESTER FABRIC. Washable using a soft cloth in cold soapy water. For indoor and outdoor use. Comes with a carry bag and pegs. Colours LIGHT GREY (180)

67 557

each

Sensory motor skills

Encourage movement
through *sensory experience!*

Through touch, the child puts words to the feelings they experience, boosting their language learning and exchanges with others.
A great source of sharing and discovery!

- +

Stimulate tactile perception.
Stimulate the vestibular system.
- 

From eco-managed forests

+ 12 months

SENSORY WOODEN TILES These wooden tiles can be placed side by side to form the suitable sensory path(s) for each need by adding natural materials such as sand, leaves, feathers and more. Touch, discover and smell: these sensory tiles encourage children to become aware of their body and improve their balance by stimulating tactile awareness through the hands or feet. Tile: L: 13 1/2" - W: 13 1/2". Made from varnished PLYWOOD. Washable using a soft cloth in cold soapy water. Indoor use.

A Kit to fill	5 hollow tiles.	63 374
B Sensory kit	2 hollow tiles, 1 block tile, 1 cushion tile, 1 ridged tile, pebbles and driftwood.	63 375
C Sensory 2 kit	3 cushioned tiles, 1 block tile and 1 ridged tile.	63 376

6 to 9 months

A symbol of nature, **green** comforts and calms the mind.

Blue, a symbol of water and sky, is known to help manage stress and anxiety.

Beige reminds us of wood and lends a warm and luminous hue.

Grey has a soothing and refreshing presence. Combined with other colours, it creates a relaxing environment.

BASIC range *Natural colours*

For a soft and soothing atmosphere

Create a world of stimulation, conducive to a more relaxing experience.

How? By combining our wooden furniture with our vinyl covered motor and reading units, all in soft and harmonious colours.

Hygienic: the vinyl fabric is easy to clean with a cloth or soft sponge and cold soapy water

Tough: high-density 1,5 lbs/ft³ foam interior that does not sag over time

No risk of injury: foam covered with vinyl fabric

Choice of colours: IVORY (138) – SAND (135) – LIGHT BLUE (057) – DUCK BLUE (223) – SPRING GREEN (104) – MOSS GREEN (139) – LICHEN (122) – LIGHT GREY (180)

KIDY S'COOL RANGE

A flexible layout solution for confident learning

More than just storage units, the Kidy S'Cool range creates a complete classroom. It combines storage units with work and relaxation areas to offer children and supervisors options: working in small groups at a high table, or seated at a low table, or sitting alone in the refuge corner. Choose from multiple layouts.

Safe: rounded edges for maximum safety.

Sturdy: melamine coated high-density chipboard, solid beech legs with laminated plywood frames and accessories.

From eco-managed forests
30% recycled materials.

KIDY S'COOL LOW UNIT 3 compartments Made from MELAMINE COATED WOOD PANELS.

UBLO BARRIER

The “featherweight” partition!

Our decorative and cleverly designed Ublo barriers reinvent partitioning for spaces and playpens. Suitable for both indoor and outdoor use, they're the perfect combination of functional and attractive with their lightweight design, rounded lines and soft colours. Designed to make life easier for supervisors, they fold away easily, accordion-style, for optimal space saving thanks to their compact dimensions.

Lightweight: (fewer than 8,8lbs) and compact (L: 37 3/4" – H: 27 1/4")

Easy to move

Fully washable

Maximum safety

Anti-pinch system for finger protection

No sharp components likely to injure a child

Slatted openings ensure constant visual contact between children and supervisors

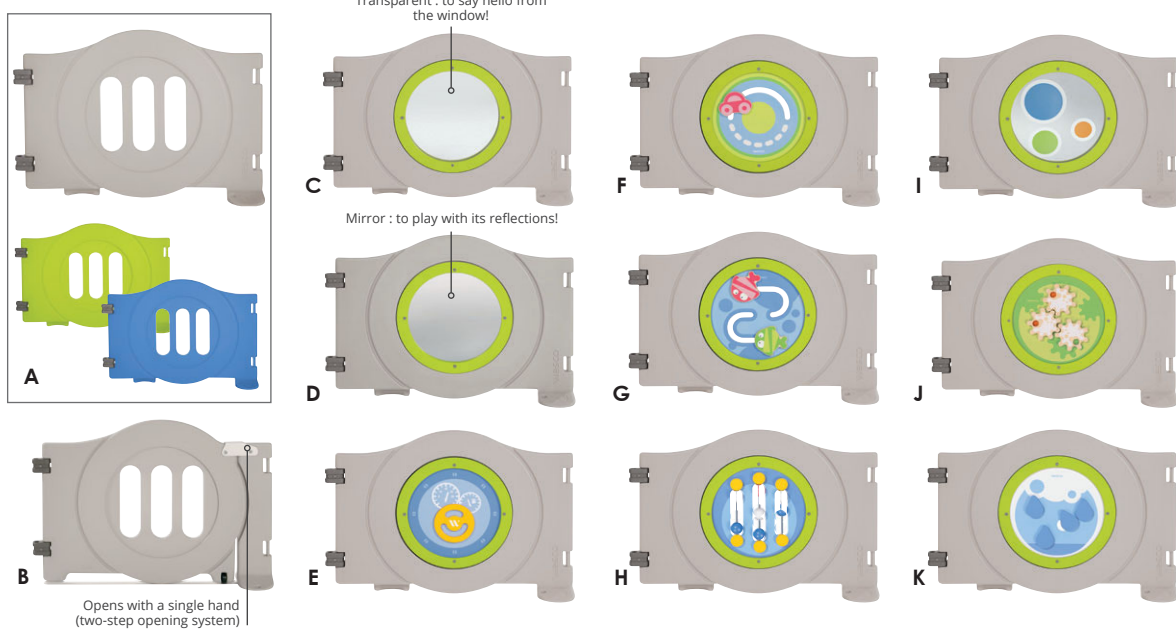

Can be attached to the floor (fixings not supplied, dependent on floor type)

100% recyclable.
Made from recycled
material.

Can be folded
accordion-style and
stored against a wall

Ublo BARRIER L: 37 3/4" - H: 27 1/4" - th: 1 1/2" - width of foot: 21 1/2". Weight of barrier: 8,8lbs. Made from thick POLYETHYLENE (frame) and WOOD (activities). Washable with water. Delivered flat-packed, do-it-yourself installation.

For indoor and outdoor use.

L 2 LARGE ANTI-SHOCK MOBILE PARTITIONS KIT 45 483 pack of 2

Stackable: for maximum space-saving.

Hygienic: no contact between the mattress and the mattress contour above. The shape of the side allows the mattresses to breathe when stacked.

Easy care: the vinyl fabric can be cleaned gently with a cloth or sponge, in cold soapy water.

Comfortable: fits the mattress perfectly.

Beds for independent children

Encourages free motor skills

COCON range

For use with a 47 1/4 x 23 1/2" mattress.

Ideal for transitioning between a cot and a stackable bed, the contour Cocoon mattress encourages freedom of movement in children: it's easily accessed by very young children who will be able to go to bed and get up independently. Its position at floor level also minimises the risk of falling and so, reassures children.

wesco
design

MADE IN CANADA

Complies with standard
XPS 54 045

Specially designed for
the very young!
Higher edges.

They overlap head-to-tail
for twice as much space
optimization (H: 35 1/2"
for 6 slim mattress contours).

Do not fold.
Risk of deformation.

With
environment-
friendly
bio-based vinyl
fabric.

Decofoam range

As children sit, crawl and jump on these Decofoam play items, they exercise both their imagination and their motor skills. Self-identification, body awareness and expression using language form the basis of the essential educational benefits of the Decofoam range. Children identify with the characters driving a racing car, riding animals, etc. The larger Decofoam items can be used by several children at once!

Ball pools

Children love falling into, playing and relaxing in our ball pools. Through play, they become aware of their bodies, develop motor skills and learn to play together.

Resistant: Highly resistant vinyl fabric.

1,5 lbs/ft³ foam: long-lasting and durable, will not lose its shape.

Hygienic: the vinyl fabric is easy to clean with either a soft cloth or sponge and cold soapy water.

Each ball pool has a base mat.

Quick installation: Each component is fitted with hook & loop strips from top to bottom (except the "Lotus" range which has zip fastenings).

INCLUSIVE SOLUTIONS

Ball pools have benefits that are therapeutic, relaxing and sensory, with a kinaesthetic aspect (position and movement of the various parts of the body).

Ball pools also allow development in an unstable but safe environment.

TINY TOT Modules range

1 to 3 years
for use under adult
supervision

Discover our Tiny Tot
modules range in
bio-based materials on
pages 84 and 85

Children need *movement!*

Quality first!

Crawl, climb, slide, balance...

Children can move around our courses in complete safety,
designed to withstand thousands of children!

Mini Tiny Tot modules

Especially for
small spaces

Very resistant vinyl fabric, easy to clean.

1,5 lbs/ft3 foam: long-lasting and durable, will not lose its shape.

Firm, comfortable foam:
1,5 lbs/ft3 density polyether
foam for superior longevity
over time: won't sag.

Hygienic: vinyl fabric is easy
to clean with a cloth or soft
sponge and cold soapy water.

Highly resistant fabric: Vinyl
fabric on a jersey support, stitched
all round with extra strong nylon
thread. This coating does not burn
children's skin through friction.

Ultra-resistant seams: All our
modules are sewn, with no zip
fastenings, to avoid injuring children.
Our "embroidered" stitching seals
the modules, and prevents children
from getting inside them.

1 to 3 years

Made in Canada

Tiny Tot module Walking aid It is scientifically proven that we can help babies' intellectual development by guiding them as from their very first crawling attempts. Through stimulation using a variety of techniques (voice, sounds, objects, etc.) adults attract infants' attention and motivate them to move using all 4 limbs. For each component: L: 27 1/2" - W: 19 3/4" - th: 2" to 12". Made from VINYL COVERS. Indoor use. Fitted with an anti-slip base. Colours LIGHT GREEN (037)

Sensory Tiny Tot range

1 to 3 years
for use under adult supervision

2-in-1: motor and sensory courses!

In addition to our Tiny Tot modules, the Sensory Tiny Tot items offer a sensory, visual and tactile experience in the discovery of different materials.

INCLUSIVE solutions

Tactile products sharpen sensations for sight-impaired children or those with reduced feeling in their fingers.

SENSORY Tiny Tot modules Consists of: 1 half-cube and 1 cover. Made from 1,5 lbs/ft3 density POLYETHER FOAM covered in a jersey-lined VINYL FABRIC and VARIED FABRIC. Washable at 86 °F (removable cover). Indoor use. Fitted with an anti-slip base.

				SENSORY REPLACEMENT	
A	Multi-textured half-cube	Side: 19" - H: 9 1/2".	65 375	set	46 622 each
B	Mirrored half-cube	Side: 19" - H: 9 1/2".	65 376	set	46 625 each
C	Multi-textured quarter cube	Side: 19" - H: 4 3/4".	65 377	set	46 621 each
D	Quarter cube Mirror	Side: 19" - H: 4 3/4".	65 378	set	46 624 each
E	Multi-textured trapezium	Side: 19" - H. max: 9 1/2".	65 379	set	46 623 each
F	Mirror trapezium	Side: 19" - H. max: 9 1/2".	65 381	set	46 626 each

SENSORY Tiles By walking barefoot on the sensory tiles or touching them with their little hands, children discover new sensations of varying intensity depending on the textures. Consists of: 1 foam tile and 1 removable cover. Side: 19" - th: 1/2". Made from VARIED FABRIC and VINYL FABRIC. Washable at 86 °F (removable cover). Indoor use. Fitted with an anti-slip base.

65 384 set

From birth

Made in France

4 DENSITY TILES The different densities of the 4 density tiles are a chance to adapt and readjust motor skills. Used in many ways (loose, organised in a flat or upward course), they create a multitude of educational exercises based around the development of recognition and fine motor skills. Each density is defined by a specific colour. Consists of: 1 very soft blue block (65 N), 1 soft yellow block (110 N), 1 firm light orange block (190 N) and 1 very firm light green block (300 N). L: 19" - W: 9 1/2" - th: 2 1/4". Made from VINYL COVERS. Washable with soapy water. Indoor use.

Gymnastic and development mats

Firm foam mats for floor exercises and fighting sports

Tumbling mats are designed to be used to form a line or large tumbling area. They can be placed side by side on the floor for fun activities to practise motor skills such as : gymnastics, dance, judo, games...

Ultra-firm, 1,5 lbs/ft3 density, Tatami judo-type polyethylene foam. Hygienic: the vinyl fabric is easy to clean with either a soft cloth or sponge and cold soapy water. Our embroidered stitching makes them airtight and prevents access to the interior. Fitted with a **non-slip base**.

In 1984, Wesco was the first designer and manufacturer to offer a range of foam motor skills modules. Designed in collaboration with occupational therapists, this range encourages the expression of childhood characteristics: spontaneity, naturalness, the need to experiment, to move...

Used singly or in a number of different combinations, BLOCmodules offer a multitude of possibilities, allowing children to master their motor skills using their whole body, develop their movements, take risks and sequence motor skills actions, etc.

Christelle, Designer at
Wesco

While crawling, stepping over, balancing and developing a sense of security and self-confidence, children over the age of 3 learn to master their motor skills and acquire initiative and perseverance using these modules that are designed, developed and made in Canada!

PLEASE NOTE: this motor skills equipment should be used for supervised educational activities, independently or under the guidance of qualified professionals

BLOC Module Range

The first motor skill modules for children aged 3+!

Very resistant vinyl fabric, easy to clean.
1,5 lbs/ft³ foam: long-lasting and durable,
will not lose its shape.

Firm, comfortable foam: 1,5 lbs/ft³ density polyether foam for greater longevity over time: does not sag.

Ultra resistant seams: All our modules are sewn, with no zip fastenings, to avoid injuring children. Our "embroidered" stitching seals the modules, and prevents children from accessing the interior.

Highly resistant fabric: Vinyl fabric on a jersey support, stitched all round with extra strong nylon thread. This covering does not lead to friction burns.

Hygienic: the vinyl fabric is easy to clean with a soft cloth or sponge and cold, soapy water.

BLOCMODULES Made from 1,5 lbs/ft3 density POLYETHER FOAM covered in a jersey-lined VINYL FABRIC. Washable soapy water.
Indoor use.

new colours Explor'action range

3 to 6 years
for use under adult
supervision

Diverse motor skills *experiences* both *indoors* and *outdoors*.

Create a range of courses and easily adapt the desired level of difficulty by moving the pieces around on the ground or in the grooves in the "rock" pieces. This versatility allows you to create an infinite range of courses, giving your children a new adventure every day.

EXPLOR'action blocks enable children to master their motor skills and acquire confidence, the ability to take the initiative and develop confidence in their physical abilities.

Christelle Boutin,
Designer at Wesco

Designed to be used inside and outside, the components in the EXPLOR'action range offer various possibilities for climbing, crawling, working on balance, etc. Made from recyclable plastic, they combine three unique advantages: they are lightweight, robust and flexible!

Above/below
courses with the
board/tunnel

Chaotic course
(ascending or
descending) with the
sloped boards

Non-slip, grooved
surface

Use of the sloped
board (arch) with the
housing

Recycled materials.
100% recyclable.

Safety: For added safety, the blocks in this range do not have any sharp edges.

Very strong: The blocks in the EXPLOR'action range support the weight of several children or an adult.

Lightweight: The blocks can be moved around by children.

Easy to assemble: The blocks link together easily and firmly without the need for additional connecting parts that could get lost or even be hazardous.

Hygiene: The blocks are easy to clean and can be disinfected.

Durable: Manufactured from materials suitable for outdoor use (composite wood, high-density anti-UV treated plastic, aluminium).

EXPLOR'action components

Create your own course

Crossroads

**Specially designed for your courses
in a line.**

This housing provides developmental
activities on 2 levels, on the floor,
or higher off the ground.

EXPLOR'action HOUSING Extremely lightweight:
less than 6,6lbs. L: 20 3/4" - W: 11 3/4" - H: 12 1/2".
Made from thick POLYETHYLENE. Washable soapy
water. For indoor and outdoor use.

53 710

each

**This versatile rock is an essential
item for creating four-way, angular
or zigzag courses.**

With its different steps, the rock offers
exercises at higher and lower heights.

EXPLOR'action ROCK L: 26 3/4" - W: 26 3/4" - H: 12
1/2". Made from thick POLYETHYLENE. Washable
soapy water. For indoor and outdoor use.

45 183

each

Simple handrails to reassure

EXPLOR'action HANDRAILS L: 39 1/4" - W: 1 1/2" -
H: 29 1/2". Made from thick POLYETHYLENE.
Washable soapy water. For indoor and outdoor use.
Delivered flat-packed, do-it-yourself installation.

51 889

pack of 2

Straight lines

**The straight board can be placed easily in
the rock housings and can hold a hoop.**

Placed between two rocks, they transform
into a bridge, to help develop balance.

EXPLOR'action STRAIGHT BOARD L: 47 1/4" -
W: 11" - H: 4". Made from thick POLYETHYLENE.
Washable soapy water. For indoor and outdoor use.

45 185

each

Can be used alone or between 2 rocks.
Used independently, it forms either a large
arch for children to climb over, or a rocker.
Used with other elements, it makes a chaotic
circuit with plenty of ups and downs.

EXPLOR'action SLOPED BOARD L: 47 1/4" -
W: 11" - H: 11 3/4". Made from thick POLYETHYLENE.
Washable soapy water. For indoor and outdoor use.

45 186

each

**This beam can be used in both directions
and offers two levels of difficulty.**

EXPLOR'action BEAM L: 47 1/4" - W: 11" - H: 4".
Made from thick POLYETHYLENE. Washable soapy
water. For indoor and outdoor use.

66 971

each

Wheels

The wheels can be used to create a wide variety of courses to practise a number of motor skills exercises, either independently or directed: jumping, rolling, balancing, passing through, etc. They can be combined, stacked and overlaid to create strong and stable layouts.

3 EXPLOR'action MOTOR SKILLS WHEELS Consists of: 1 wheel Ø 15 3/4" - thickness: 5 1/2", 1 wheel Ø 23 1/2" - thickness: 9 3/4", 1 wheel Ø 30" - thickness: 4". Made from thick POLYETHYLENE. Washable soapy water. For indoor and outdoor use.

52 680

set

9 EXPLOR'action MOTOR SKILLS WHEELS Consists of: 3 wheels Ø 15 3/4" - thickness: 5 1/2", 3 wheels Ø 23 1/2" - thickness: 9 3/4", 3 wheels Ø 30" - thickness: 4". Made from thick POLYETHYLENE. Washable soapy water. For indoor and outdoor use.

48 022

set

Passageway

EXPLOR'action TUNNEL BOARD

To add an extra dimension to your course, this piece can be attached between rocks or housings. L: 47 1/4" - W: 11 3/4" - H: 21 1/4". Tunnel: Ø 16 1/4". Made from thick POLYETHYLENE. Washable soapy water. For indoor and outdoor use.

58 091 each

Platform

EXPLOR'action 2-BUMP MODULE

This small two-bump module can be used to create a variety of motor skills courses to complete on hands and knees, foot or by bike! Accessorise the product with hoops and weigh down with sand and water. L: 39 1/4" - W: 27 1/2" - H: 4 1/4". Made from thick POLYETHYLENE. Washable soapy water. For indoor and outdoor use. Fitted with non-slip pads.

67 229 each

ALFRESCO

3 YEAR GUARANTEE

MADE IN CANADA

Complies with standard
NFS 54-300 : motor activity
safety

Phthalate-free.

Comes with educational
booklet.

3 to 6 years
for use under adult supervision

A

Use as a
rocker

B

Two different
uses

C

A ALFRESCO STRAIGHT BEAM Rigid and very robust, it is easy to position in the fittings and can hold mini-bridges. L: 47 1/4" - W: 11 3/4" - H: 6". Made from thick POLYETHYLENE.

04 704 each

B ALFRESCO WAVE BEAM Derived from the beam, this block can be used on its own or between two slot-in blocks. On one side there is one large wave and on the other side there are several small waves. When placed on the ground it can be used as a small seesaw. L: 47 1/4" - W: 11 3/4" - H: 9 3/4". Made from thick POLYETHYLENE.

00 829 each

C ALFRESCO CURVED BEAM This beam can be used on its own (placed directly on the floor) or as part of a course (with connecting pieces). Used independently it forms either a large arch for children to climb over, or a large seesaw. When used with other blocks children can create challenging ascending and descending courses. L: 59" - l: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

12 250 each

D ALFRESCO TUNNEL BEAM This item is a combination of the beam and the wheel. When positioned between 2 slot-in blocks, it can be crossed in 2 different ways: through the inside (like a tunnel) or over the top. The top obstacle's height varies depending on which way up the beam is placed. It can also be used on its own as a see-saw. Equally, depending on the way it is positioned, it can be used by children of different sizes. L: 47 1/4" - W: 11 3/4" - H: 23 1/2" - Ø of hole 15 3/4". Made from thick POLYETHYLENE.

00 875 each

E ALFRESCO WHEEL This wheel is fitted with little studs and is one of the essential items in this range. It can be used in several different ways. On its own, you can steer it and roll it along. When stacked with other wheels to form a larger unit, held together by its built-in assembly studs, children can hide inside. Alternatively, when supported horizontally by two mini-bridges, children can wriggle through it. th: 11 3/4" - Aperture Ø 15 3/4" - overall Ø 27 1/2". Made from thick POLYETHYLENE.

04 713 each

The asymmetrical design
allows 2 different tunnel
heights.

D

E

Anti-slip grooved surface

ALFRESCO SLOT-IN TUNNEL This attractive component is extremely versatile. On its own it forms a simple tunnel which children can pass over or through. When used with beams, it becomes a bridge that children can cross in several ways: flat, on stairs or slopes. L: 31 1/2" - I: 23 1/2" - H: 23 1/2". Made from thick POLYETHYLENE.

12 251

each

One side for a horizontal beam, the other for a slope

ALFRESCO H SHAPED SLOT-IN BLOCK This block is reversible and can be used to hold beams in a horizontally or a sloping position. L: 23 1/2" - W: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

04 711

each

Three-directional on one side:
Helps to create a sloping pathways

Second side, two-directions:
helps to create straight pathways

ALFRESCO Y-SHAPED SLOT-IN BLOCK This versatile fitting is essential for creating three-way, angular and zigzag layouts. L: 25 1/2" - W: 25 1/2" - H: 17 3/4". Made from thick POLYETHYLENE.

04 712

each

Anti-slip slope

ALFRESCO STAIRS/SLOPE This block can be used at the start or end of an obstacle course. It easily slots into the H or Y shaped blocks whichever way up it is turned to become a set of 3 stairs or a slope. L: 29 1/2" - W: 11 3/4" - H: 17 3/4". Made from thick POLYETHYLENE.

00 828

each

ALFRESCO BRIDGE These can be used on the ground, with a wheel or on a beam, either as obstacles or to make a rocker see-saw. L: 15 3/4" - W: 11 3/4" - H: 11 3/4". Made from thick POLYETHYLENE.

04 705

each

ALFRESCO SEESAW KIT Consists of: 2 pieces: 1 bridge, 1 straight beam. Floor space: 47 1/4" x 15 3/4". Made from thick POLYETHYLENE. Comes with a educational booklet

38 556

set

ALFRESCO BRIDGE KIT Consists of: 3 pieces: 1 tunnel fitting, 1 right beam, 1 wave beam. Floor space: 110 1/4" x 23 1/2". Made from thick POLYETHYLENE. Comes with a educational booklet

38 560

set

ALFRESCO OBSTACLE COURSE KIT Consists of: 6 pieces: 2 H blocks, 2 right beams, 1 sloping staircase, 1 bridge. Floor space: 118" x 23 1/2". Made from thick POLYETHYLENE. Comes with a educational booklet

38 553

set

ALFRESCO KIT 1 ENTRANCE, 2 EXITS Consists of: 8 pieces: 2 H block, 1 Y block, 1 beam, 1 sloping staircase, 1 wave beam, 1 tunnel beam, 1 bridge. Floor space: Ø118". Made from thick POLYETHYLENE. Comes with a educational booklet

EVOLUTION SCOGYM range

2 to 8 years
for use under adult
supervision

Enjoy new sensory
experiences!

Wooden and plastic modules are compatible.

Sturdy: range specially designed for intensive motor activities in community settings.

Stable: wide, one-piece blocks.

Safe: non-slip pads, no sharp edges.

Quick assembly: simply stack on top of each other.

Hygienic: Easy to clean with a soft cloth and cold soapy water.

Developmental: The components can also work side by side, simply placed on the floor.

Allows you to create courses of different heights and adapt the level of difficulty according to age and motor development.

Exceptionally modular course construction.

Watch the video

All of our products need to be used under adult supervision.

Evolution, the new version of **SCOGYM**, was designed to be easier to handle, **more stable and more complete!** Designed for children to develop **new motor skills in a fun way.**

By developing in complete confidence, without focusing on performance, children progress at their own pace, with no pressure!

These courses help to develop balance, coordination and spatial awareness.

This motor skills learning is combined with sensory, visual and tactile stimulation.

69 061 set

POP UP BIVOUAC range

Let's get exploring!

As its name suggests, this Pop Up set, comprising a tent and ultra-light tunnels, is easy to put up and fold away. Practical and portable, they're ideal for small indoor spaces or temporary use. With the Pop up tent, the possibilities are endless: a cosy space for taking refuge and dreaming up stories, a ball pool, etc. And to offer an additional overall motor experience, the cabins can be connected with tunnels to form passageways that children love to slide through. Each side is transparent, letting the light in and giving the child a view of the outside world.

Folds up in a second and stows away
a bag in a flash.
Has links to connect the tunnels together.

+ 12 months
